

# Power Cuts?

A young girl with dark hair is sitting at a desk, focused on writing in a large, open notebook. She is holding a pencil in her right hand. The room is dimly lit, with the primary light source being a tall, lit candle in a glass holder on the right side of the desk. In the background, another lit candle is visible on a shelf, and a small model house is on the desk behind her. The overall atmosphere is quiet and studious.
